## 16 Click "New Chat".

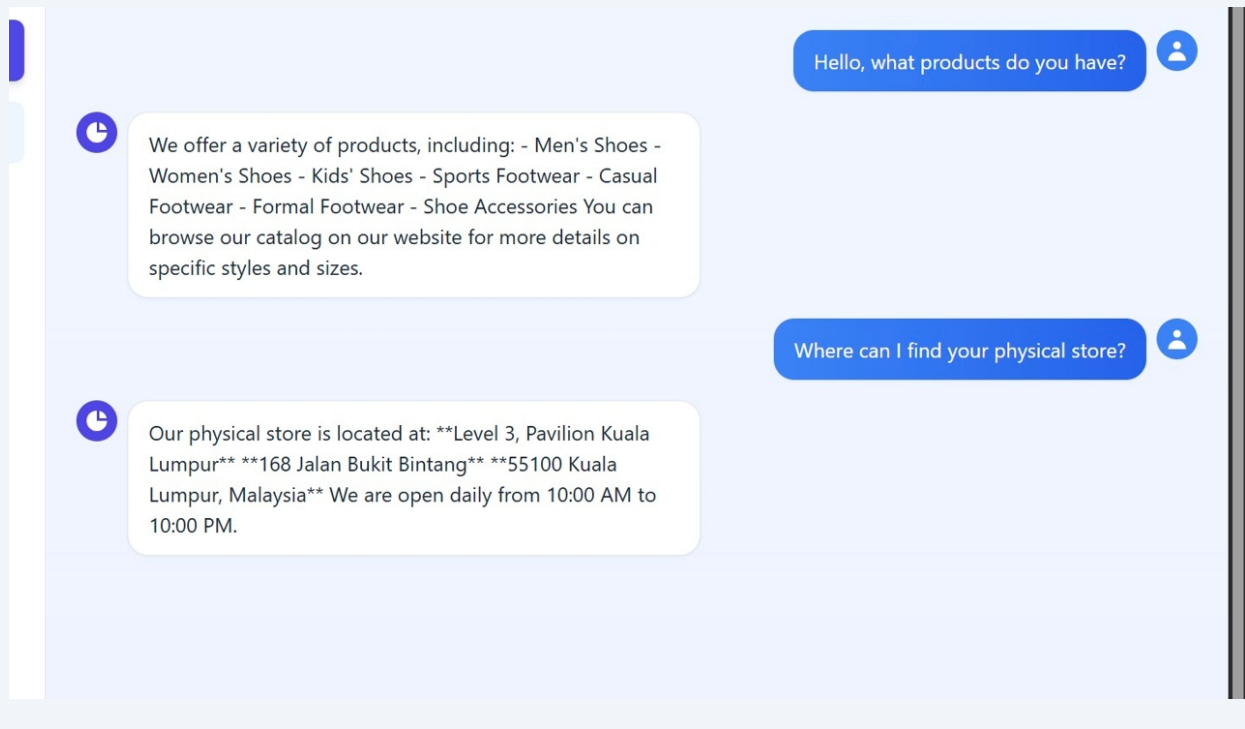

## 17 Click the message input field to start chatting with your bot.

18

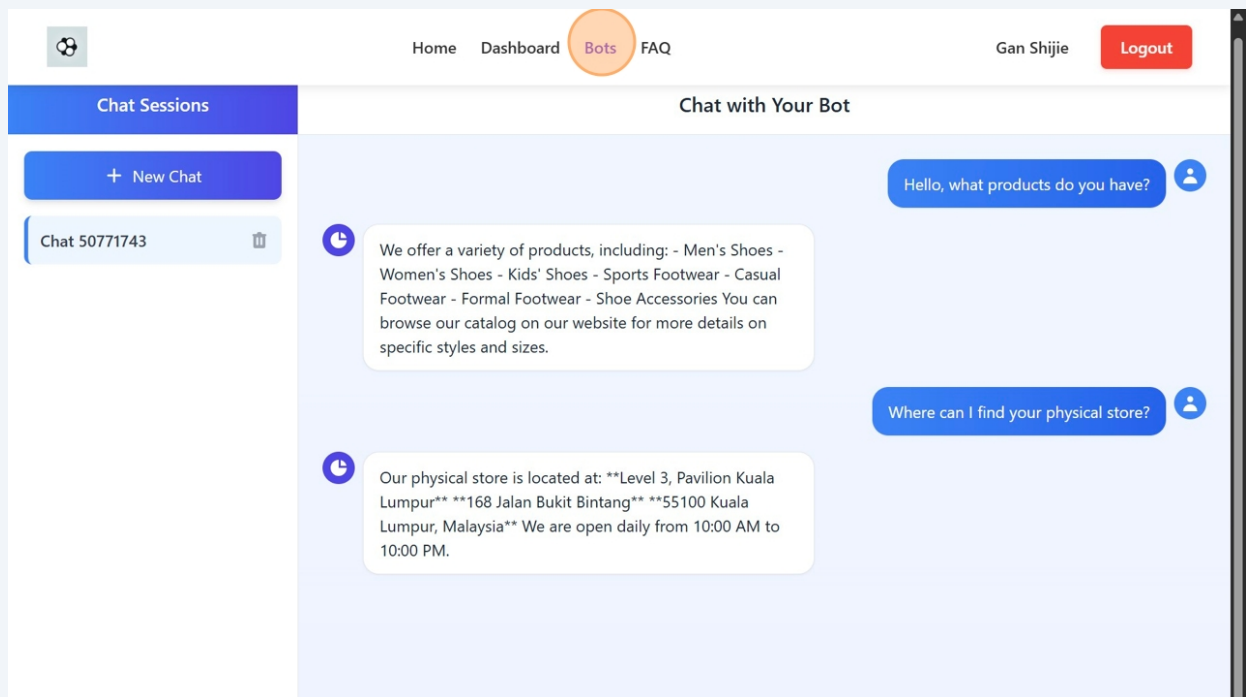

Ask something only your chatbot would know, thanks to the unique files you've uploaded.

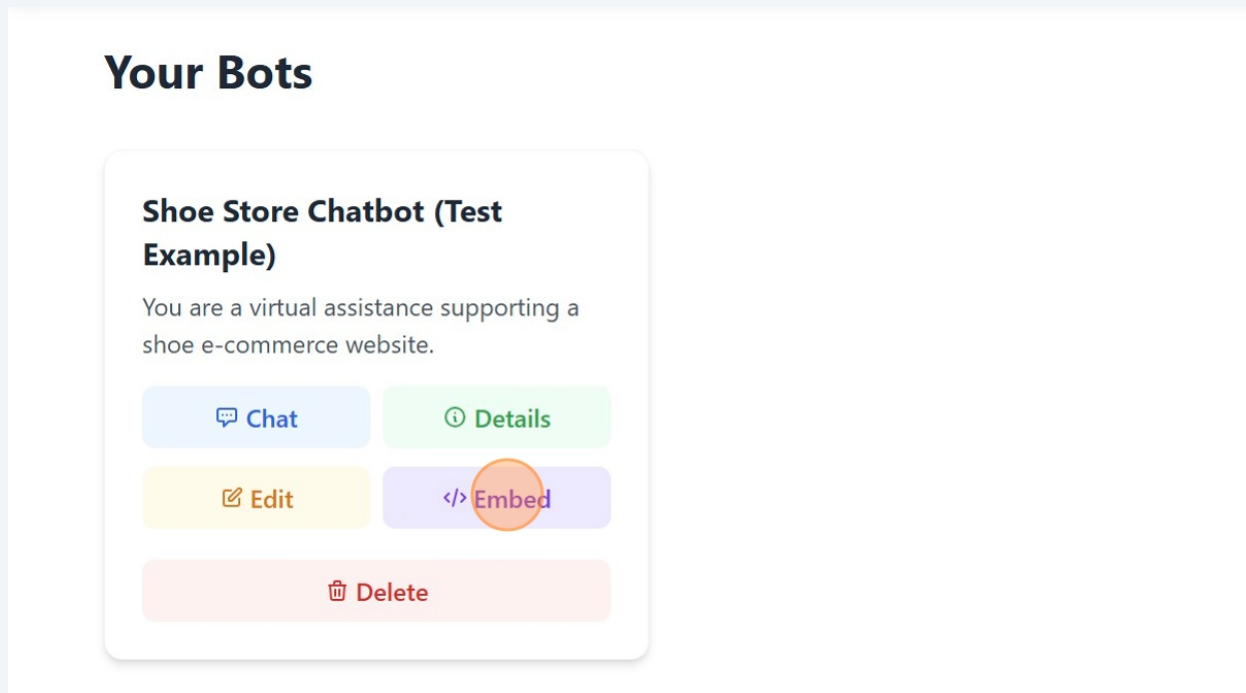

19

Once you're satisfied with testing, let's embed your chatbot into your own website—whether it's an eCommerce site or any other type!

## 20 Click "Bots".

## 21 Click "Embed".

22

Just click "Copy Code" to grab the iframe tag, paste it into your website's HTML, and boom—your chatbot is live!

## Embed Your Chatbot

Paste this code anywhere in your website:

```
<iframe
  src="https://chatbot-69x9.onrender.com/embed-chat/51e5a7a1-64d:
  style="width: 100%; height: 500px; border: none;"
  title="Chatbot">
</iframe>
```

Copy Code

Try Widget Preview

23

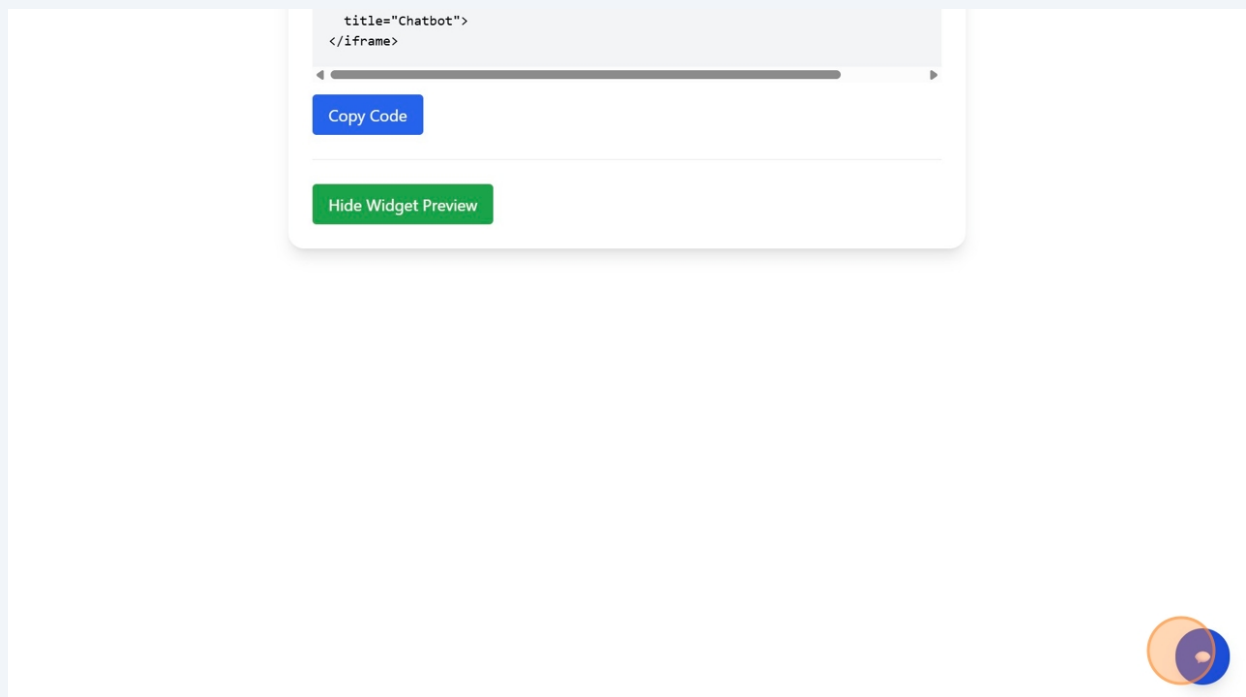

Want a sneak peek? Click "Try Widget Preview" to see how it'll appear on your site.

```
<iframe
  src="https://chatbot-69x9.onrender.com/embed-chat/51e5a7a1-64d2-471f-94e5-000
  style="width: 100%; height: 500px; border: none;"
  title="Chatbot">
</iframe>
```

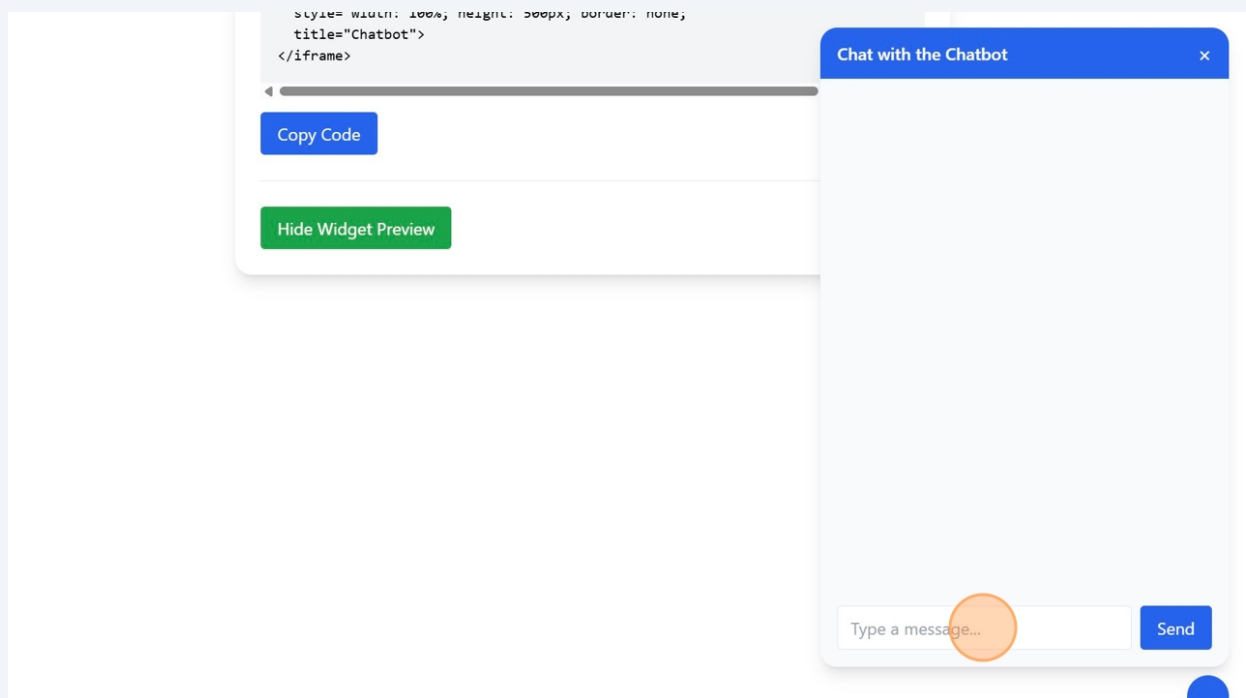

Copy Code

Try Widget Preview

**24** Click "□" to open the chat window.

**25** Go ahead and chat with the bot, just like you did earlier!

26

You've created your chatbot, tested it, and previewed how it looks. Now it's ready to be embedded into your website.

Just copy the iframe code, paste it into your HTML, and your chatbot is live!

**Congratulations, your personal chatbot is ready to engage your users!**
